

## Desktop Filling System

**3 years warranty**

KF300 Plus/4KFU1 Plus/Minipump

The control unit

**3 years warranty**

KF300 Plus/4KFU3 Plus/Handypump

The control unit

**3 years warranty**

KF300 Plus/4KFU2 Plus/KT15

The control unit

### Features

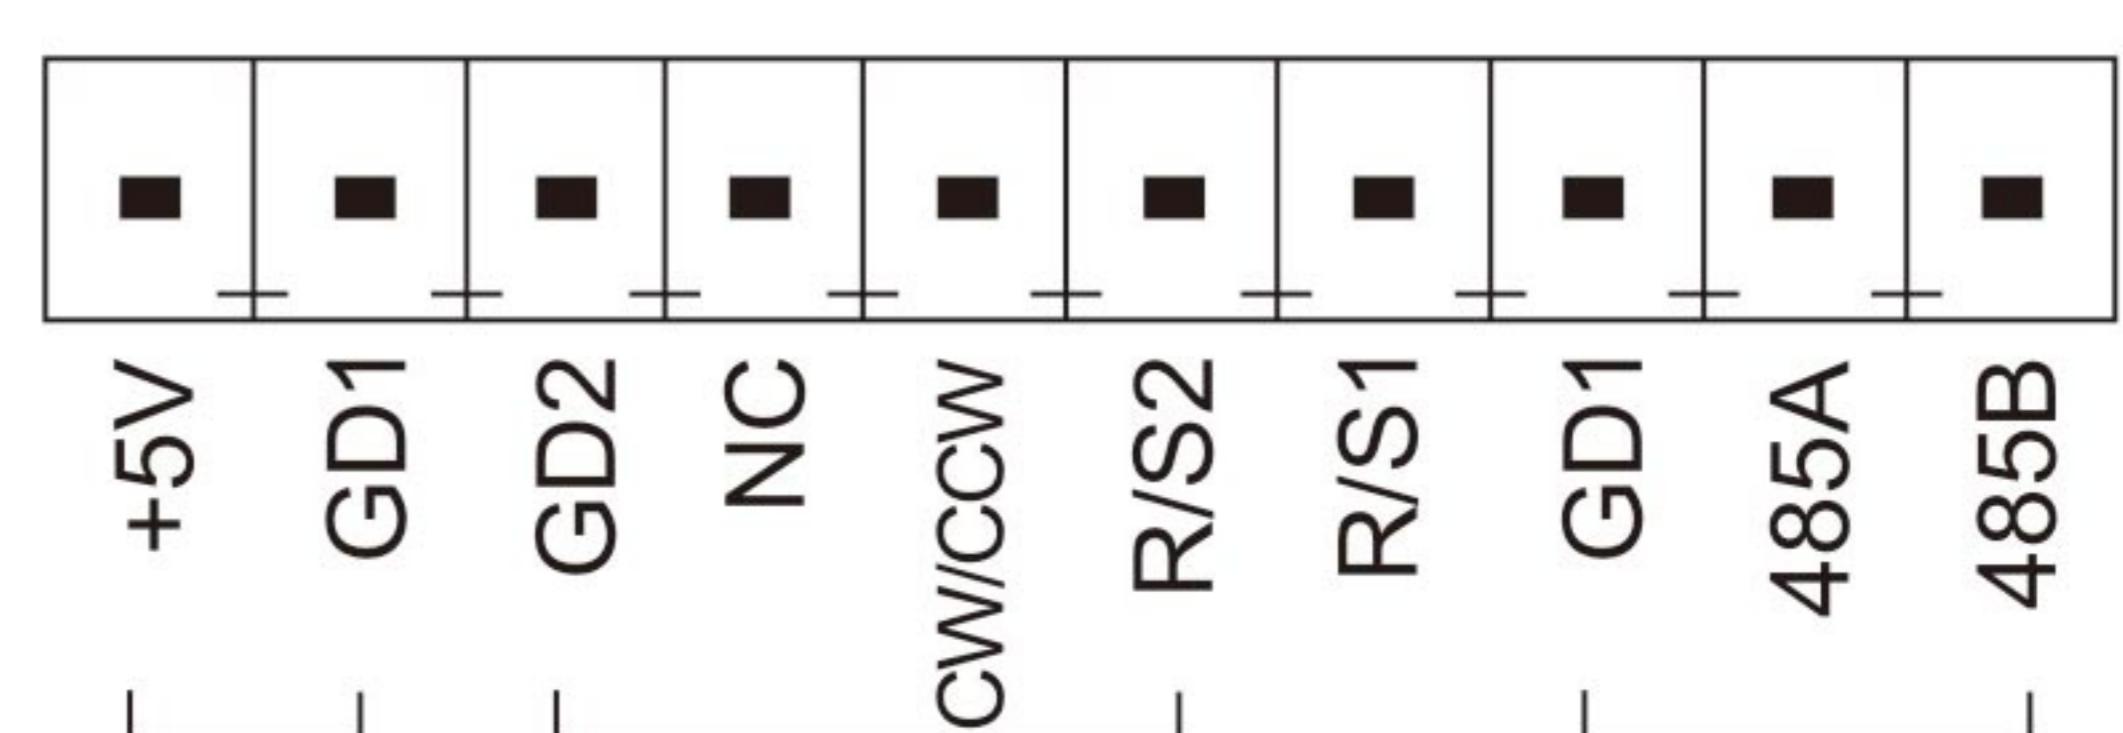

- Integrated design, a controller can control 1-32 units.
- Compact structure, compact size, beautiful appearance and saving space
- Suitable for high precision micro liquids filling in laboratory.

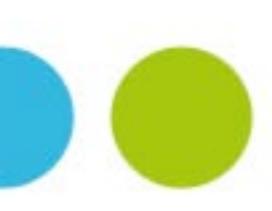

### Model Number | KF300 Plus Series

#### Typical Application

- Laboratory liquid distribution
- Diagnostic reagent components
- Medium dispensing

### External Control Schematic Diagram

### Technical Specifications

|                    |   |                              |   |
|--------------------|---|------------------------------|---|
|                    | KF300 Plus/4KFU1 Plus/Minipump:0.1-300 rpm  | <b>Keypad lifetime</b>       | <b>300,000 times</b>                                |
| Speed range        | KF300 Plus/4KFU3 Plus/Handypump:0.1-300 rpm | Control mode                 | Touch screen and Mechanical keypad                  |
|                    | KF300 Plus/4KFU2 Plus/KT15:0.1-350 rpm      |                              | Passive switch signal, such as :foot                |
| Filling volume     | 0.01-9999.99 ml                             | Start/stop, direction signal | pedal switch; Active switch signal, 5-24V universal |
| Dispensing time    | 0.1-9999.99 s                               |                              |   |
| Interval time      | 0.1-9999.99 s                               | Output interface             | Output motor working status (Open-collector output) |
| Volume resolution  | 0.01 ml                                     | Communication interface      | RS485 support Modbus protocol (RTU mode)            |
| Time resolution    | 0.01 s                                      |                              |   |
| Copy numbers       | 1-9999 times,0 represent unlimited          |                              |   |
| Back suction angle | 0-3600°                                     | Power supply                 | AC 100V-240V(50Hz/60Hz)                             |
| Filling accuracy   | <±0.5%                                      |                              |   |
| Filling units      | 1-32 units                                  | Condition Temperature        | 0-40°C  |
| Display            | 4.3"Industrial grade –color LCD display     | Relative humidity            | <80%  |

Experimental conditions:standard atmospheric pressure, room temperature at 20°C,the liquid is pure water, no pressure, no suction and lift.

Note: Actually, it is affected by many factors such as transmission medium, inlet and outlet pressure, hose material and error, working environment, etc. This data is for reference only.

### KF300 Filling Volume Reference Parameter(Media is water)

| Drive      | Pump Head             | Tubing | mL/r  | Filling Volume (mL) | Filling Time(s) | Filling Accuracy (±%) | Output(pcs/min) | Motor Speed(rpm) |
|------------|-----------------------|--------|-------|---------------------|-----------------|-----------------------|-----------------|------------------|
| KF300 Plus | MiniPump              | 13#    | 0.027 | 0.06                | 0.8             | 3                     | 33              | 166.67           |
